

FCO SERVICES

Part of the Foreign and Commonwealth Office

Managing Estates and Property

Provide a safe,
sustainable, fit for purpose
working environment that
is effectively managed
and efficiently run

With an unrivalled track record of proven delivery in managing the British Government's global estate, FCO Services can advise and provide technical assistance on all aspects of estate and property management. Our network of highly experienced, professionally qualified experts will help you make the most of your assets, ensuring you have buildings that suit your budget and the ways you need to work both now and in the future.

Managing Estates and Property

Managing your estate and property

Property Inspections: establish the condition of buildings and create a tailored programme of planned maintenance, to ensure compliance with standards and to minimise the cost and disruption of emergency works.

Environmental Services: we can advise on or provide effective, economic and sustainable management of building services installations in any climate

Fire Risk Assessments: whether it is a building design or an existing property, the risk of fire is measured and a comprehensive report and practical, pragmatic recommendations provided.

Asbestos Surveys and Removals: we will survey your estate for asbestos containing materials (ACMs), provide management plans and advise on or manage any removal works, all to the highest UK standards. The proper handling, treatment and management of asbestos is essential for responsible health and safety and environmental management.

Lift Inspection Service: ensure effective safety and convenience for staff and visitors by making sure that maintenance and repair standards are upheld

High voltage (HV) Systems: we can provide advice on the operation, management and maintenance of HV equipment.

Gas and Electrical Inspections: we can arrange testing by qualified personnel to ensure your property's installations are safe and compliant with regulations, best practice and standards.

Health and Safety services: our audits and risk-based assessments can improve the health and safety of your workplace.

Your service from FCO Services

As well as providing advice or technical support, we can provide training for your staff to ensure the right skills and knowledge are available locally.

Our highly qualified Mechanical and Electrical Engineers are experts in understanding electrical safety regulations for the ownership and operation of HV equipment and can train and appoint authorised personnel.

Our Sustainable Operations Support Team can deliver a range of accredited and non-accredited health and safety courses globally, including Health and Safety in the Workplace, Risk Assessment, Hazardous Substances, Fire Safety, Emergency First Aid and many more.

About FCO Services

FCO Services is part of the Foreign and Commonwealth Office, supporting them for more than 65 years. We provide secure services to an overseas network at 267 posts in 152 countries. We have shared values and priorities, and have an in-depth understanding of our customers' needs.

We are a successful Trading Fund with a unique mix of public value and commercial skills. We work to drive efficiency and pass the savings from this onto our customers.

We work in partnership with our customers to achieve the solutions they need and have local knowledge on a global scale, adapting those solutions to suit the local environment. Our staff are security vetted, highly trained and professionally qualified with a wealth of experience.
