

FCO SERVICES

Part of the Foreign and Commonwealth Office

Physical Access

Know who is accessing
your premises and
keep your people and
information safe with a
highly secure access
control system

High quality, professionally installed access control systems provide peace of mind that all assets – people, information, buildings and equipment – are well protected. Our experienced, security cleared experts will install the right system for your premises, whatever the function or layout, including full integration with other security installations such as perimeter security.

Physical Access

Features

- Smart card and biometric technology (where considered appropriate)
- Highest quality hardware components
- Remote management and local permissions rights
- Audit reports
- Provision access controls at building entrances and within designated secure areas within buildings
- Minimum of eight years' comprehensive service and maintenance on all systems

Your service from FCO Services

As the organisation responsible for securing the British government's entire diplomatic estate, FCO Services fully understands the threats all governments face in protecting their assets and has unrivalled experience in providing the most effective protection.

Our team of specialists with experience in constructions, building hardening, electronic and IT systems and project management, will install your system to the highest standards,

working with you to ensure work is carried out efficiently and with the minimum of disruption.

Your people will be fully trained in operating and managing the system including in how to give or change user permissions and access rights.

About FCO Services

We are part of the Foreign and Commonwealth Office, supporting them for over 65 years. We provide secure services to an overseas network at 267 posts in 152 countries and have a deep understanding of security matters built on this experience.

We have experience in dealing with the highest levels of security threats, and anticipate future security challenges and develop solutions to help our customers. Our staff are vetted, highly trained and professionally qualified with a huge wealth of experience.

We have local knowledge on a global scale, adapting our solutions to fit the local environment. We work in partnership with our customers to deliver the solutions they need.
